THE MEN WHO GREW

The Winning Apples

We have been favoured by Messrs. DeHart and McDonald with lists of the names of the growers who supplied fruit for the district exhibit and the champion ear-load of Jonathans and who exhibited, per Mr. DeHart, in the box and plate classes. In forwarding his list, Mr. DeHart says: "I enclose you a list of the growers, whose fruit, which I exhibited at the National Apple Show, was successful. They also supplied the fruit for the district exhibit except one box from Mr. Bob White, whose apples were white and were much admired by the Judges. The K. L. O. also supplied two boxes of King David, whose very dark red colour caused many to stop and ask their name. Mr. R. Sweny supplied the small Pomme Grise and Mr. T. Murray the Winesaps."

TEN-BOX DISPLAYS

Northern Spy—1st, T. W. Stirling.
Grimes Golden—1st, 6 boxes from Mr. Dan McLean, 4 from Mr. T. Bulman.

CITY COUNCIL

Barbed Wire Along Sidewalks

At the regular weekly meeting of the Council on Monday, the Mayor and Alds. Cox, Harvey, Jones and Leekie were present.

The following accounts were referred to the Finance Committee, and ordered to be paid, if found correct. H. H. Millie, 'phone and tele

'phone account, Oct.\$12.25
Kelowna Sawmill Co., lumber and hauling sawdust, Oct.294.04
C. P. R., freight and express... 5.17
A. R. Davy, teaming for Oct.... 4.75
A. R. Davy, mowing weeds on streets during Aug. 21.00
T. Lawson, Ltd., Power House supplies 1.25
North-West Electric Co., Power House supplies, 72.07
Thomson Stationery Co., stationery 30.00
F. Billings, legal advice 2.00

Ald. Cox complained of the presence of barbed wire along sidewalks on certain streets on the south side of Mill Creek, stating that to his knowledge several ladies had suffered damage to their dresses by the obnoxious wire.

The Mayor said the Council could, by resolution, declare barbed wire fences a nuisance and order them removed, quoting the Municipal Clauses Act in support of his statement.

It was decided to instruct City Constable MacRae to request the owners of the barbed wire to remove it in all cases where it runs along sidewalks on frequented streets.

The Mayor and Ald. Jones made an informal report as to the convention of the British Columbia Union of Municipalities, held last week at Salmon Arm.

The Mayor stated they had spent a pleasant couple of days and had derived benefit from exchanging their experiences with their comrades in municipal work. As delegates from Kelowna, they had brought up two matters of some importance. One concerned the power of rural municipalities to invest their sinking funds on first mortgages on farm lands within their respective areas. City municipalities had no such power, and if Kelowna had it, it would be possible to save about \$800 per annum owing to the much higher rate of interest that could be earned on mortgages as compared with the present forms of investment for sinking funds yielding about four per cent. The convention had approved of the privilege being extended to cities, and a recommendation to that effect will be made accordingly to the government. They had also brought up the important matter of municipalities being enabled to expropriate irrigation water, and the convention passed a resolution concerning it. He did not think there would be much trouble in getting the necessary legislation, as two members of the Water Commission had expressed themselves as in favour of it, and the government would no doubt be guided in drafting changes in the Water Act largely by the recommendations of the Commission. Amongst other important matters dealt with was a proposal that municipalities should be authorized to consolidate their debentures, by making one issue to cover all previous issues, which received the approval of the convention, as did also a resolution in favour of giving Councils majority control of Boards of Licence and Police Commissioners. The convention was doing good work, most of the amendments to the Municipal Clauses Act made last session being due to suggestions by the Union of Municipalities. The convention had expressed the opinion that the Tranquille Sanitarium for Tuberculosis should be taken over by the government, the cost of support to be borne partly by the latter and partly by municipalities. The sanitarium had provided substance for quite a lengthy discussion, and much interest was

NINE DAY

Cleaning Up

SALE

OF ALL DRESS GOODS

LOT No. 1 consists of a large variety of Tweeds, Plaids, Mohair Satin Cloths, etc. Prices ranging from 65c to \$1.00 per yard. Clean up Sale price, only 50c per yard.

LOT No. 2 consists of 37 pieces of Panamas, Voiles, Diagonals, Venetians, Vicunas, Cord-de-Chines, etc. Prices ranging from \$1.00 to \$1.50 per yard. Clean up Sale price only 75c per yard.

Everyone knows the kind of goods we carry but nobody has known such prices on them as are given at this Sale.

These Prices are for Cash only

KELOWNA OUTFITTING STORE

W. B. M. CALDER, Prop.

shown in the question of handling tuberculosis and tubercular patients.

Ald. Jones interjected that one thing that struck him forcibly was that the Okanagan as compared with the Coast regions was much favoured by the absence of consumptives, and—without linking their names with the latter in any way—also of paupers and undesirables. He was surprised to learn that Hindus are more subject to tuberculosis than any other class, apparently due to their unclean habits of life in this Province.

The Mayor, continuing his remarks, said the convention had made a recommendation that the clauses in the Municipal Act relating to trade licences should be so amended as to permit collection of licences from chartered banks. Another matter had been brought up last year and again this year, namely, that to secure continuity of councils, half of the members of such bodies should be elected annually, to hold office for two years, with the exception of the reeve or mayor, who would be elected annually as at present. He concluded by stating that Kelowna had been given representation on the Executive.

In this connection, Ald. Jones added what the Mayor's modesty forbade him to relate, that His Worship had polled the highest vote for a place on the executive.

Ald. Leekie announced that he had received only two tenders for the wood required for the Municipal Power House. One was for 4-foot wood at \$4.00; the other quoted \$4.75.

Ald. Jones enquired how did wood at these prices compare with coal. Ald. Leekie replied that the grates were not suitable for burning coal, as they were only designed for wood instead of being combination grates to use either. The wood would not be required until next year, as there was about enough sawdust and slabs on hand for two months' run, but a supply should be provided for next year's council to begin with.

Some general discussion took place as to the exhaustion of the sawdust fuel supply, and the consequent increase in the cost of running the power plant due to purchase of cordwood. The Mayor advocated installation of a 50 h.p. engine, generator, etc., next year, which would not cost over \$4,500, and would give a reserve in the event of the present plant being taxed to its full capacity, while it could be operated on the

Evangelistic Meetings

Rev. F. A. Robinson, Toronto, As-
sistant Secretary of the Moral and
Social Reform Department in connec-
tion with the Presbyterian Church in
Canada, is at present holding evan-
gelistic meetings in Knox church. The
missioner is assisted by Mr. McBret-
ney, a tenor soloist from Toronto. In
addition to the regular meetings one
for children will take place to-mor-
row (Friday) afternoon at 3.15; and
a men's mass meeting on Sunday af-
ternoon at 4 o'clock, in the Metho-
dist church. The meeting for boys
and girls will take place in the Sun-
day school hall of the Presbyterian
church. Daily prayer for Christian
workers will be held each morning
from 10 to 10.30.

The missing Count Leo Tolstoi has
been located at a little railway sta-
tion 80 miles from his home, suffer-
ing from high fever. His temperature
is 104, and he is in a condition of
severe mental depression which ren-
ders medical aid of little avail, and
his recovery, at his advanced age, is
regarded as very problematical.

In the incredibly short space of six
days the sum of \$515,000 has been
collected in Vancouver for the erec-
tion of a Y. M. C. A. central build-
ing and branches. The successful
conclusion of the campaign was cele-
brated by a thanksgiving service on
Sunday afternoon.

The Editor Won.

A London paper described a chil-
dren's excursion as a "long white
scream of joy" and was called to ac-
count by a correspondent, who said
"but a scream could be long, but not
white, whereupon the editor justified
himself by urging that 'a hue is often
associated with a cry.'"

Every heart contains perfection's
seed.—Shelley.

How Weather Prophets Work.

Birds and beasts are all more or
less sensitive to coming changes in
the weather, and by observation of
their movements warnings of changes
in the weather can be obtained. Sea-
birds, we learn from an interesting ar-
ticle in "Whitaker's Almanack" for
1910, fly inland in search of food as
stormy weather comes; wildfowl
leave the marshy grounds for higher
localities; swallows and rooks fly low
before and during bad weather; frogs
are unusually noisy; and sheep huddle
together near bushes before rain.
In fine weather a strip of seaweed
will keep dry, and have a somewhat
dusty feeling, but with an increase of
moisture in the air will become limp
and sticky, indicating rain. A rosy
sky at sunset, whether clouded or
clear, a grey sky in the morning, a
low down—that is, when the first signs
of dawn appear on the horizon—all in-
dicate fair weather. A red sky in the
morning indicates bad weather or
much wind. Assimilating these and
other signs, that much maligned class
of people, weather prophets, are able
to give us our prophecies.

CONGRATULATIONS

From Our Neighbours

"ALL HAIL, KELOWNA.

"The whole Province of B. C. and
the Okanagan in particular must ac-
claim Kelowna and Mr. DeHart, who
year after year carries off the pre-
mier honours. The ear of Jonathans
exhibited by Kelowna and which was
awarded a first prize was a revela-
tion to even growers of fancy apples.
In any city, in any country, on the
globe, even with prejudiced judges,
if such there be, it would have been
impossible to withhold from this ear
the premier award. Row after row,
box after box, 600 boxes with 120
apples, no more, no less, in every
box; 72,000 apples in all, delightful
to behold. Uniformity of size and
the perfect pack were apparent to the
most casual observer. This ear we
understand was purchased by a Van-
couver firm. We know had the Fi-
nance Minister, Mr. Ellison, not been
on his way to the Old Country, it
would have been secured for exhibi-
tion purposes there. Such a ear of
fruit for advertising purposes in the
Motherland could not be over-estim-
ated."—Penticton Herald.

"We should be particularly pleased
to learn of the phenomenal success
of Kelowna in carrying off the grand
sweepstake and so many prizes for
district and box exhibits. The ear
of Jonathans exhibited by our sister
town was a carload of the most per-
fect apples ever placed on exhibition
in the world. So said Professor Van
Deman, the premier judge of apples
in America.

"You certainly have the apples and
you know how to show them," was
his terse summing up.

"Here's to Kelowna! and here's to
Summerland!"—Summerland Review.

AFTER THE SHOW

Sweepstakes Scores

According to the Summerland Re-
view, the scoring of the ears taking
the first three places in the Sweep-
stakes was as follows, the possible
being 100: 1st, Kelowna, 97; 2nd,
Summerland, 93.4; 3rd, Vernon, 88.

May Pull Even

Promoters of the show expect that
the financial end of the affair will
be satisfactorily settled through the
grants by the provincial authorities
and the Grand Trunk Pacific and
Canadian Northern railways. The to-
tal expenses of the show were about
\$40,000. The gate receipts were \$10,-
000, subscriptions by Vancouver coun-
cil and citizens \$21,000. With inci-
dental receipts and outside subscrip-
tions, the total receipts were \$35,-
000.

Broader Policy for Enderby

When Enderbyites see the displays
of fruit at the Coast fairs, and hear
of our neighbouring towns winning
prizes over all comers, do we not feel
a pang of regret at not being "in
the game" when we realize that we
have here as good a district as any
for the production of fancy fruit?
Do we not yearn for the time when
our own people will waken to the
possibilities before us and make an
effort to accomplish something bet-
ter than we have? Do we not wince
at our parsimony when we hear of
little hamlets the size of Keremeos
putting an exhibit in at the National
Apple Show, and walking away with
a prize in the district exhibits. Do
we not yearn for a bigger and broad-
er policy for Enderby, when we hear
of Armstrong levying a two-mill
tax for advertising the district, while
we cannot raise funds to meet even
the smallest demands of the Board
of Trade?—Enderby Press.

The Driford Hotel, Victoria, a por-
tion of which was erected in 1861,
and which until the completion of
the C. P. R. Empress Hotel, was the
leading hostelry in the provincial cap-
ital, has been purchased by David
Spencer, Ltd., the owners of the large-
gest departmental store business in
the Province, and will be converted
into business premises in connection
with the reconstruction of the build-
ing occupied by that firm, which was
destroyed in a general conflagration
two weeks ago.

MISSIONARY CONVENTION

At Peachland

(Contributed.)

The Woman's Missionary Society of
the Methodist Church held their
third annual convention for the Ok-
anagan District at Peachland on
Thursday, November 10th. Sixteen
delegates were present as well as
local members and visitors.

Reports of Auxiliaries and Mission
Bands were encouraging, showing
progress of the work.

An address on "The Progress of
Missions," was given by Mrs. J. M.
Elliott, of Peachland, in which she
said, we cannot dodge the command
"Go ye into all the world," for it
rests upon us to fulfill. A most in-
teresting and instructive "Map Talk"
on China was given by Mrs. J. W.
Davidson, of Kelowna, outlining the
work in general of our missionaries
in the field. She urged us to sur-
round these people and our mission-
aries there with our love and pray-
ers.

Greetings were extended by the W.
C. T. U. and the Baptist Mission
Circle.

After a discussion as to how we
can help the foreigners of the val-
ley, a resolution was passed, "That
we, the Auxiliaries of the Okanagan
District, think upon the needs of the
foreign element of our valley and en-
deavour to devise some way of bring-
ing the Gospel to them."

Mrs. D. H. Watson was re-elected
District Organizer. Supper was serv-
ed in the church and a social time
spent. The address of the evening
was given by Rev. J. P. D. Knox,
of Peachland, taking for his subject
"The relation the Church bears to
the great uncivilized, unchristianized
masses." Solos were rendered by Mrs.
J. L. Elliott, of Peachland, and Mrs.
Mitchell, of Penticton; also music by
the Peachland choir. Mrs. J. B. Ro-
binson gave the address of welcome,
and was replied to by Mrs. Cox, of
Kelowna. A vote of thanks was ten-
dered the ladies of Peachland for
their kind hospitality and to all
who had helped to make the conven-
tion a success.

Armstrong was the place chosen for
the next convention.

OKANAGAN MISSION NOTES

(From Our Own Correspondent)

Fish have been biting well lately
and two 10-pounders have been land-
ed.

Mr. B. E. Crichton shot a bear cub
the other day at the foot of Mr.
Barney's meadow.

The first consignment of fur has
already been received by the Okana-
gan Mission Supply Company.

A disastrous fire occurred at Mr.
Jack Smith's house on Thursday
last. The house was burnt out and
practically everything in it includ-
ing cash was lost. Very great sym-
pathy is felt on all sides for Mr. and
Mrs. Smith in their great misfortune.

WESTBANK NOTES

(From Our Own Correspondent)

Mr. A. Nicol was a visitor to Ke-
lowna last week-end.

Mr. Brown is putting up a house
on his lot on the townsite.

A successful dance was held at the
boarding house on Wednesday.

Provincial Constable Tooth paid a
visit to Westbank on Saturday.

A large amount of ploughing is be-
ing done these days, although inter-
fered with by the recent snow.

Mr. and Mrs. J. Campbell were
visitors to Kelowna on Wednesday.

Mrs. E. deLatour is paying a visit
to her son, Mr. P. deLatour, in Ke-
lowna.

Mr. J. Gellatly, who recently met
with an accident, is making a good
recovery.

Mr. Hewlett has now a full line of
groceries and a good selection of
hardware in his commodious new
store.

Mr. C. Hurlbut has taken a con-
tract to cut logs for the Glencoe
sawmill, and figures on cutting a
million feet by the end of the year.

A Genuine Snap!!

Large Cottage facing the Lake. Beautiful
location in Parkdale. Ten minutes walk from
the Post Office. 2 years old.

\$1,650.00 (This is \$400 less than cost)

BUSINESS STATIONERY

Too much stress cannot be laid upon the importance of sending out your correspondence in a manner that will create a good impression.

Do not save money by first attacking your business stationery.

Get The Best

The impression created by business stationery is lasting, and many a house has lost business owing to the fact that letterheads, billheads, statements, envelopes, business cards, etc., were got up in such a manner as to leave the receiver under the impression that such a concern was doing business in an attic.

BLANK BOOK WORK

With the recent installation of a power wire stitcher, perforating, punching and round cornering machine, The Courier is now in a position to execute orders for this class of work, in quality equal to that from city shops. Call and see samples.

LOOSE LEAF INVOICE FORMS

We always keep a full stock of Invoice Forms for the Simplex Loose Leaf System, and can supply them on short notice.

Send your orders for printed matter to this office. Our work and prices are always right and right always.

WATER STREET

THE OLD GREAT EASTERN.

She Was a Rocking Horse When Her Engines Stopped at Sea.

"You can say what you please about the old Great Eastern," said an American who has crossed the ocean twice or more every year for almost half a century, "but she was a grand idea. The trouble was that the idea was almost fifty years ahead of its time. It has taken the world all that time to grow up to a Great Eastern as exemplified by the Lusitania and the Mauretania.

I made my first voyage to Europe in the Great Eastern. That was in 1862. It was the first time the vessel sailed into Liverpool. She had accommodations for hundreds on hundreds of passengers, but there were only 100 in her on that trip.

"You know she had both a propeller and paddle wheels. As long as she kept going it was all right, for she moved along steadily and majestically. But one day we were halted by a small French steamer that had mail to send to Europe, and we stopped short in midocean, while a boat put out from the other vessel.

"Well, how it happened I don't know, but the huge mountain of a vessel seemed to lose her balance. She wobbled about there in a dreadful fashion. Passengers and stewards were hurled about in every direction, and, as for crockery, I don't believe a whole plate or cup or saucer was saved from the wreckage.

"On the vessel was every sort of general cargo, including live stock, and, as for provisions, why, we had better food and fresher than you can get on a liner today. We had absolutely fresh meat, fresh milk and freshly killed chicken.

"Even in speed the Great Eastern was in advance of her time, for it took us only eight days to get to Liverpool."—New York Sun.

Passing of the Umbrella.

"The time is coming," remarked a floorwalker in one of the big stores, "when umbrellas will be relics of the past. Automobiles are knocking them out. I don't mean by that that people buy automobiles to ride in on rainy days instead of carrying umbrellas. It is inconvenient to carry an umbrella in an auto, and autoists provide themselves with those light raincoats that can be used even in warm weather, and the practice of having a raincoat handy instead of an umbrella is spreading all the time. Then manufacturers are now able to waterproof almost any sort of overcoat goods, and there isn't much necessity for a man to own an umbrella in overcoat weather. They point out that in a real drenching storm an umbrella would not do much good anyhow and in a mild shower one wouldn't get very wet anyhow. There will still be use for umbrellas for women, but even they are doing without them more and more."—Cleveland Plain Dealer.

Animals We Know.

How recent a science is that which used to be called natural history, but which is now divided into so many branches, is shown by some figures recently presented to the British Association for the Advancement of Science. In 1830 the total number of species of animal life known was 73,588. This included 49,100 kinds of insects, 11,000 of mollusks, 3,000 of birds and 3,500 of fishes. In 1881 the total number had increased to 311,653; the birds and fishes had grown to 11,000 each, mollusks to 33,000 and insects to the surprising number of 220,150. Of spiders alone there were then known 8,070 sorts. In the years since 1881 the number of new species discovered each year has averaged 12,000, so that now there are catalogued and described in round numbers 600,000 kinds of animals.

Hot Planets.

Jupiter, Saturn, Uranus and Neptune—the four outer planets—are hotter than the earth. Recent observations at the Lowell observatory, secured in the form of photographs of planetary spectra, show that there is oxygen in the atmospheres of all four and that in the cases of Uranus and Neptune hydrogen and perhaps helium are atmospherically present. The outer planets have water vapor as the principal constituent of their atmospheres. They probably consist of a nucleus hot to its surface, veiled in dense, unbroken clouds, floating in an atmosphere largely composed of steam.

An Exploded Theory.

"Do you believe there is anything in mental suggestion?"

"Not a thing."

"Don't you think it is possible if one person keeps his mind steadily fixed on a certain thing which he wishes another to do that the other will be influenced so that he will eventually do it?"

"No, I don't believe in the theory at all. I've been wishing for a week that you'd pay me what you owe me without making it necessary for me to ask you for it."—Chicago Record-Herald.

THE MEN WHO GREW

The Winning Apples

Continued from Page 1

Cooper Market—1st and 2nd, E. A. Barney.

Of the fruit included in the "Two-Two" exhibit, the barrel of Wagener came from Mr. W. D. Hobson, the barrel of Spitzenberg from Mr. A. S. Mills, the box of Yellow Newtown from Major Lindsay, the box of Grimes Golden from Mr. Fred. Wolrige, the basket of McIntosh Red from Mr. John Reekie, and the basket of Northern Spy from Mr. G. C. R. Harvey.

The car-load of 600 boxes of Jonathan was obtained by the Farmers' Exchange from the following growers: R. Mansfield, 100 boxes; R. W. Carruthers, 80; C. H. Geen, 50; J. W. Woolsey, 40; J. Conlin, 40; S. Sprout, 30; A. S. Mills, 20; W. R. Barlee, 20; O. Dendy, 20; W. C. Blackwood, 20; H. B. Green, 20; Melville & Steele, 20; Casorso Bros., 20; N. Thacker, 10; T. Leader, 10; H. Mallam, C. S. Smith, W. D. Hobson, Dr. Wansborough-Jones, J. H. Thompson, 100.

CITY COUNCIL

Barbed Wire Along Sidewalks

Continued from page 1

light load during the hours after midnight much more economically than the large engine and generator. The saving in fuel would be considerably more than enough to pay interest and sinking fund on the machinery, which would amount to about \$360 per annum. The additional plant would also be available should it be decided to supply power during the daytime for manufacturing purposes, of which there was a distinct need. As to the present rate of fuel consumption, the Mayor said that Engineer Colquhoun claimed he was running this year on two-thirds the amount used last year, owing to setting the valves properly and keeping the boilers clean.

On motion, the tender of Mr. G. L. McGin, for 100 cords fir and pine wood at \$4.00 per cord, delivered, was accepted, subject to the quality of the wood being approved by the chairman of the Power and Light and Light Committee.

By-Law No. 80, regulating the rates chargeable for water was read a third time. It provides that the minimum rate be \$1.60 per month on metered service, allowing consumption of a maximum of 4,000 gals. From 4,000 to 14,000 gals. the rate is 20 cents per 1,000 gals., and over 14,000, 16c per 1,000. Meter rent will be 20c per month. The schedule of flat rates per month is: dwelling houses, stores and all other services, \$1.60; hotels, \$12.00 and 20 cents per room additional; restaurants, \$3.20; livery stables, \$3.00 and 10 cents additional per stall; laundries, \$5.00; barber shops, \$1.60 first chair; 50 cents for each additional chair. Discount will be allowed at the rate of 25 per cent., if paid within 15 days.

The Mayor said the By-Law would be typewritten and submitted to the City Solicitor for his opinion. An electric light by-law would also be prepared for submission to the Council.

Council adjourned until Monday, 21st inst.

"This doesn't smell like the last gasoline I had," said the man who recently bought an automobile.

"It's all right, sir," said the garage man, "you're getting used to it."

Albion and Columbia.

"Albion, the Gem of the Ocean," was written and composed by Jesse Hammond, an English government dock official, about 1820 and was heard above all others in the theaters, music halls and on London streets. It is apparent that "gem of the ocean" fits an island more aptly than our large tract of continent, and "borne by the red and the blue" (the red of the British army and blue of the navy) is more logical than the meaningless line "borne by the red, white and blue." The lines of the English songs are almost word for word identical with our version, "The Red, White and Blue."—Exchange.

HANS WAGNER.

The Way the Great Star Got His First Baseball Job.

"The career of Wagner in baseball has been interesting," says Hugh S. Fullerton in the American Magazine. "He was reared in Carnegie, Pa., before it was Carnegie, and he and his brothers played the game there. John—1 wonder how many admirers of Honus, or Hans, know his name is John P.—was not a good player as a boy. The brothers thought he was a bit too awkward and barred him except when he wanted to pitch. His arms were tremendously long, and they assert around his home that when he was a 'kid' and his legs were even more bowed than they are now he could walk along and pick up apples without stooping. That immense length of arm has been one of the physical advantages that have gone to make him the greatest of all players. Besides, he has shoulders almost as wide as his arms are long, and he could throw a ball with terrible speed. Because he could throw so hard all the other boys boasted no catcher could hold John and thereupon made him pitcher.

"Presently Al, who was John's older brother, became a professional player and got a job playing third base for a team at Steubenville, O. George Moreland, who now is the chief baseball statistician of the country, was seized with a mania for owning and managing teams, and he had bought the Steubenville club and hired Al Wagner. Moreland needed a pitcher in the summer of 1895 and could not find one to complete his pitching staff until Al Wagner came to him and said, 'Why don't you give my brother John a chance?' 'Can he pitch?' asked Moreland. 'I don't know,' replied Al. 'But it won't cost much for you to find out.'

"Honus was playing on the lots around Carnegie, and Moreland wrote, asking him if he would sign a contract to pitch for Steubenville, and the second day thereafter there came a postal card on which was written: 'Yes. When do you want me?'

"Wagner ignored the salary question entirely, and Moreland called Al into consultation. 'What will your brother want?' he asked. 'Oh, anything will suit him,' replied Al.

"The salary limit of the Steubenville team was \$800 a month, and Moreland was within \$35 of the limit set by the league, so he wrote offering John Wagner \$35 a month to pitch for him. The following day came another laconic card: 'All right. Will accept.'

"Moreland telegraphed Wagner to report immediately and wired a railroad order for transportation. The telegram was sent at 8 o'clock in the morning, and the first train leaving Pittsburgh for Steubenville started at noon, reaching Steubenville at about 1:30. Shortly before 1 o'clock Claude Ritchey, who was playing his first professional engagement, said, 'Here comes the big Dutchman,' and Hans Wagner, covered with cinders, sauntered up to begin his baseball career."

Goethe and the Canals.

"Among all the anecdotes and stories which the fortieth anniversary of the completion of the Suez canal has called forth no mention seems to have been made of Goethe's prophetic words on the subject," says a writer in a Vienna paper. "On July 21, 1827, Goethe said to Eckermann: 'So much is certain: If a channel could be cut through the Isthmus of Panama broad enough and deep enough to allow the passage of ships from the Mexican waters to the Pacific the whole world would be greatly benefited. I should like to see this, but fear I shall not live long enough. I should like also to see the English build a canal at Suez, but would probably have to live another fifty years.' The canal became a fact forty-two years after Goethe prophesied it.—Exchange.

Animal Immigrant Disliked.

If the English sparrow could read what is now said against him the report that the American gray squirrel is the object of quite as much protest in England would be in order. A few years ago a titled Englishman imported several pairs of gray squirrels from this country to give more animation to his woodlands. The American squirrel became fashionable, and the first colony was succeeded by many others. Now the complaint is heard that the gray coats are driving out the good old fashioned British brown squirrel and altogether deporting themselves with a strenuousness shocking to the best traditions. They are declared to be more belligerent than their British kin, fiercer and more impudent, though admittedly intelligent. —Boston Transcript.

Alexander's Airship.

At the museum at Innsbruck, in Austria, there has been for a number of years a piece of pottery in the form of a basin which experts were unable to locate as to age. It has now been determined that it was made in the twelfth century, and the great bowl is remarkable more for the design which it bears on the inner side than for its age. It shows Alexander the Great riding in an airship which is propelled by griffins. Alexander stands holding with a great rod food over the heads of the griffins.

KELOWNA COURIER

Kelowna Land & Orchard Co. Limited.

BEES! BEES!!

BEES are absolutely necessary to secure proper pollenisation of fruit, and every orchardist should provide himself with several hives, otherwise he is taking long chances on a shortage of crop. The best of soil, perfect conditions of climate and irrigation, vigorous trees avail little if the blossoms are not thoroughly fertilized, and this can only be thoroughly done through the agency of the honey bee.

We have a number of choice hives for sale.

Local and Personal News

Mr. T. Hill returned from Vancouver on Monday.

Mr. E. A. Wood left for the Old Country this morning.

Mr. B. V. Bray came down from Armstrong on Saturday.

Mr. A. Bridgman, solicitor, Armstrong, was a visitor to town on Tuesday.

Mr. J. E. Harvey, of the Royal Bank, left on Monday for a visit to Vancouver.

Mr. F. C. Gamble, provincial public works engineer, arrived yesterday's "Okanagan" on an official visit of inspection.

Dr. and Mrs. Mathison left yesterday for Summerland, where they will spend the next four weeks, returning here about the middle of December.

Mayor Sutherland and Ald. J. W. Jones returned on Saturday from Salmon Arm, where they had been attending the annual convention of the B. C. Union of Municipalities.

Mr. A. Auld, of Watford, Ont., who had been spending a few days with his brother-in-law, Mr. G. McKenzie, left yesterday for the Coast. He is much pleased with Kelowna, and prophesies that the town will receive new life and will make rapid growth during the next year.

Mr. F. Wolrige is in receipt of a letter from a lady residing at Brandon, Man., acknowledging the receipt of a box of apples which he had shipped to her. It stated that they were beautiful apples, that people were determined to come this way after seeing what the climate will grow, and that any country that grows fruit like those apples must be the place for a white man to live in.

Mr. W. McLean, of Victoria, who is connected with the Slater Shoe Co., bought on Saturday Mr. E. J. Pettigrew's lot on Manhattan Beach, and will build a cottage so that his family can spend the summer here. The sale was put through by Mr. F. R. E. DeHart. As Mr. McLean is an old-timer in Victoria, it is a valuable tribute to the attractiveness of Kelowna's summer climate that he should choose this place as a summer resort in preference to his own city, much vaunted for climatic and other residential advantages.

Mr. L. Holman left this morning for Walbachin, 15 miles west of Ashcroft, to inspect the tobacco grown this year by the B. C. Horticultural Estates Co., who consulted him last year as to suitable soil and methods of cultivation. The company put in 15 acres this year, although Mr. Holman advised them to go slow at the start, and as the work of planting and cultivation was not done under his supervision, he does not know what success has been attained, although some good samples of leaf have been forwarded to him.

Mr. Harvey, C.E., P.L.S., has taken into partnership with him Mr. B. A. Moorhouse, who recently passed the final examinations for the P. L. S. qualification. In addition to practical experience in the field in this district, Mr. Moorhouse was for three years assistant engineer in Winnipeg and was engaged for four years in survey work in the Old Country before coming to Canada. He has made a large circle of friends during his residence here, and they will be glad to learn that he will be a permanent resident.

Mr. W. D. Harris, a former resident of Kelowna, arrived from Vancouver on Monday and is engaged in canvassing the town for orders for cleaning and dyeing on behalf of the Perth Dye Works, Ltd., Vancouver, a concern established in 1892 but incorporated this year. Two other ex-Kelownians are actively associated with the firm, Mr. A. A. Humphreys, formerly organist of St. Michael & All Angels, being Vice-President, and Mr. J. W. M. Scott, Secretary-Treasurer. Should business be found to warrant it, the company may establish a branch here, but in the meantime orders will be received by Mr. Harris at the Palace Hotel.

Mr. F. R. E. DeHart went to En-durby on Monday.

Mr. and Mrs. C. J. Fox and children left on Friday for England, where they will spend the winter.

Capt. J. Weeks is in command of the "Okanagan" while Capt. Estabrooks is taking a well-earned rest.

Mr. W. R. Baker, local manager of the Vernon Fruit Co., left for Vernon on Tuesday, operations at the Kelowna branch having been concluded for the season.

The Kelowna Lawn Tennis Club will hold their first annual ball on Friday, December 2nd, in the Opera House. Tickets, price \$2.00 for gentleman and lady, \$1.00 for extra lady, can be obtained from any member of the committee, which consists of Messrs. B. F. Boyce, M.D., A. H. Huycke, M.D., W. J. Mantle, A. I. Meugens, W. A. Peters, N. D. Metavish, D. Leckie, H. A. Willis, J. E. Harvey, E. Dixon, Mrs. Leckie, Mrs. Metavish, Mrs. Huycke, Miss M. Harvey, Miss L. Adams and Miss G. Hudson.

The concert given on Thursday night, in the Opera House, by the Royal Welsh Ladies' Choir, was much enjoyed by a large audience, who found the programme all too brief, and nearly every number was rapturously encored. A number of the songs in the first part were in Welsh and were thus unintelligible to all but a few individuals. Their sweetness and harmony, however, were so pleasing that they were received with almost as much appreciation as the songs in English. The "Miserere" from "Il Trovatore" was the gem of the entire concert, and the magnificent contralto was thunderously applauded and had to repeat part of the scene. No contralto voice of equal range of compass, sweetness and power has ever been heard before in Kelowna, and the lady on her appearance later in the programme was enthusiastically received. "Killarney," sung as a solo with a curious humming accompaniment by the choir, was also a fine number. The ladies, seventeen in all, appeared in picturesque Welsh costumes, some of them wearing the odd steeple-crowned hat. The choir was conducted by Madame Hughes Thomas, who showed perfect control over the shades of expression in the part singing.

BUSINESS LOCALS

Dr. Mathison will be at Summerland until 15th December.

Miss Sinclair is receiving pupils in china painting at her home, cor. Water and Eli. Firing done. Lessons: 2 hours, 75 cents; 3 hours, \$1.00.

W. J. Currie, piano and organ tuner, will be in this city about November 20. All orders left at D. W. Sutherland's furniture store will receive prompt attention. 14-2

Shakespeare's Ideal Comedy, "TWELFTH NIGHT," To Be Presented Here.

Seats are now selling for the engagement of "Twelfth Night," the most picturesque and delightful of all the Shakespearian comedies, which will appear here one night, Tuesday, November 22nd, under the direction of C. P. Walker. Presented by a company of experienced Shakespearian actors, with a most elaborate costume and scenic equipment, Twelfth Night is ideal entertainment. The company are the famous English players with Mr. Yule, the popular Canadian comedian, and Violet Eddy, a winsome young actress, especially engaged for the roles of Sir Toby Belch and Viola respectively.—Adv't.

New Westminster has sold \$181,400 of 5 per cent. 20-year debentures to Stimson & Co., Toronto, at 102 3-8, and \$192,000 of 4 1/2 per cent. 50-year debentures, to the same firm, at 94 2-5. Last year, at about this time, Stimson & Co. purchased \$398,000 worth of 5 per cent. debentures from the city at par, and the price obtained this year is accordingly deemed very satisfactory by the municipal authorities.

KNOWLES AND XMAS

IT is the most natural thing in the world that the citizens of Kelowna and the Okanagan should, when thinking of Xmas, associate it with the name of KNOWLES.

For more than five years we have been the big Xmas present house for this city and district, and during this time our jewelry business has grown from a very small one to the largest in the Okanagan.

As a result of the proprietor's visit this Fall to the leading cities of Eastern Canada and United States we are able to show a much larger and more varied selection than in previous years.

We invite your inspection and shall consider it a great privilege to show you the many new and pretty articles in silver, gold, china, brass, cut glass, etc., suitable for the holiday season.

KNOWLES, The Jeweler
KELOWNA

TO RENT—For two months dating from Dec. 26th, a 6-room fully furnished bungalow, electric light and city water; 10 minutes from P. O.—For particulars apply to Geo. F. James, Bernard Ave. store. No children. 16-3

Malvolio and the Plotters—Scene from "Twelfth Night"

Prince Victor Napoleon, of the house of Jerome Bonaparte, recognized as the undisputed head of the Bonaparte family, was married on Monday to Princess Clementine, third daughter of the late King Leopold of Belgium, at the chapel Moncalieri at Turin. The nuptial ceremony was without ostentation. The Bishop of Biella officiated at the religious ceremony, while the Mayor of Moncalieri performed the civil ceremony.

At the convention of the Union of B. C. Municipalities, held at Salmon Arm, on November 10th and 11th, the following officers were elected: Pres., Mayor Planta, Nanaimo; Vice-Pres., Mayor Robinson, Kamloops; Hon. Sec.-Treas., ex-Reeve Bose, Surrey; Executive—Reeve Byrne, Burnaby; Mayor Sutherland, Kelowna; Reeve McNaught, North Vancouver; Ald. Bannerman, Victoria; Ald. Enright, Vancouver; Mayor Lee, New Westminster; Mayor Hamilton, Revelstoke.

NEWS OF THE PROVINCE

By a score of eight points to three Victoria defeated Vancouver at Rugby football on Saturday, at the Oak Bay grounds, Victoria.

A young Vancouver physician, Dr. H. S. Ford, perished last week on Jervis Inlet of cold and exposure, having become separated from his companions and spending the night in the forest with fatal results.

The City Council of Vernon has been advised by the Department of Militia that, no appropriation being available, the proposed new armory cannot be erected either this year or next. Temporary accommodation, however, will be provided for the local squadron of the B. C. Horse.

The scheme for the establishment of a large up-to-date drydock at Esquimalt is being fathered by Mr. Ralph Smith, M.P., who will bring the matter before the Federal house at the approaching session and urge the appropriation of a considerable sum to aid the scheme.

Walter Wollacott, formerly a provincial constable stationed at Alert Bay, was sentenced on Saturday by Judge Melnes to six months' imprisonment, on the charge of diverting to his own use moneys belonging to the provincial government while acting as agent at that place. Wollacott pled guilty and promised to make restitution.

The Nelson street railway system, as re-constructed, was opened last week for service. The railway was originally built during the boom times over ten years ago, but was not a financial success, and had not been operated for a number of years. Several years ago the car barn was destroyed by fire together with all the rolling stock. The line has been practically rebuilt during the past few months, and equipped with new cars, and it promises to be as great a success as it was formerly a failure.

At a convention held at Spence's Bridge last week, Mr. Alexander Lucas, of Agassiz, secured the Conservative nomination for the vacancy in the representation of Yale riding in the Legislative Assembly, caused by the resignation of Premier McBride, who has been sitting for both Victoria and Yale since last provincial election. Mr. T. E. Julian, of Vancouver, has announced his candidature as an Independent, and Mr. Stuart Henderson, a former member for the district, will probably stand in the interests of the Liberal party.

A company of the Imperial Veterans' Brigade has been organized in Nelson, 29 men signing the roll immediately on formation. The Brigade is a new organization that has literally sprung into being, and already, before permanent officers have been elected, it has enrolled 3,800 members. The uniform of the Imperial Veterans is limited to the hat, which all members are expected to secure. It has a wide brim, looped up at the left side with the ribbon of the medal owned by the member, membership being limited to those who have seen 10 years' service with the colours or who have won medals.

Corporal John Bowlan, of the garrison artillery, was murdered on Friday, at McAulay Point Fort, Victoria, by Gunner Charles Ratcliffe, who shot him through the heart with a bullet from a service rifle, and half an hour later blew his own brains out with the same weapon, after firing a number of shots at an armed party of 35 men detailed to arrest him. Several of the party had narrow escapes from the murderer's bullets. No motive can be ascribed for the murder other than resentment by Ratcliffe of reproof by Bowlan for boisterous behaviour at the banquet to the men of the new Canadian cruiser, Rainbow, held the previous night. Both men formerly served in the Imperial troops and obtained transfer to the Canadian service. Coming so soon after the killing of Capt. Ellison, by Gunner Allen, who is to hang on December 2nd, the tragic affair, so similar in place and circumstances, has created a profound impression in Victoria and a certain feeling of uneasiness in regard to the personnel of the garrison.

NEWS OF THE DOMINION

The second session of the second legislature of Alberta opened at Edmonton on Thursday.

All the Queen's Own Rifle officers left behind in England suffering from typhoid fever are recovering.

The Canadian Northern is surveying a line into the Peace River and Grand Prairie districts.

Twenty-six million bushels of grain have been shipped from the head of the great lakes already this season.

The revenue of Canada has increased almost \$1,000,000 during the first seven months of the present fiscal year.

Margaret Anglin, the distinguished Canadian actress, is seriously ill at a retreat near Chicago. Her throat is in a very bad condition, and she may never sing again.

Following the arrival of H. M. C. S. Rainbow at Esquimalt last week, the naval yard was formally transferred from the Admiralty to the Dominion authorities on Wednesday. The occasion was marked by a brief ceremony, the Admiralty flag being lowered and another Union Jack being hoisted in its place.

The reciprocity conference between representatives of the United States and Canada concluded on Thursday at Ottawa, without any definite result, but another meeting will be held at Washington, probably early in January, when it is possible that an agreement may be arrived at on the questions under discussion.

The findings of the Royal Commission in reference to the Alberta & Great Waterways investigation, as laid upon the table of the Alberta Legislature at its opening on Thursday, completely exonerate Messrs. Rutherford and Cross of the charges of corruption preferred against them in the legislature last winter.

The proposed hunt of the fifty refractory buffaloes on Pablo's reserve, in Montana, comprising the balance of the whole number purchased by the Dominion government, has been called off for the time being, objection having been raised by the United States government on the ground that the shooting of the buffalo would be contrary to law.

According to the annual report of the Postmaster-General of Canada, issued last week, the estimated increase over 1909 in the number of letters and postcards carried in the Canadian mails during the last fiscal year was 45,705,000, or 10 per cent. Owing to growth of the service, the expenditure has increased considerably, yet there was a surplus of \$743,210 from the year's operations. Vancouver stands fourth in the Dominion for gross postal revenue.

The board of valuers appointed to decide upon an equitable sum for which the Kettle Valley Railway Co. should purchase the old Midway & Vernon right-of-way, has decided upon a figure in the neighbourhood of \$62,000. The valuers hope to be in a position to make payments in the matter of various claims for wages and supplies incurred by the defunct railway company assumed by the Kettle Valley road, sometime between now and the end of the present month. The claims for labour and accounts of that description, so far as they appertain to the ten-mile right-of-way, between Midway and Rock Creek, are likely to be paid in full. This was the portion of the road with which the board of valuers could deal. Other claims in connection with that portion of the road, will, it is stated, receive substantial consideration.

The third National Apple Show opened at Spokane on Monday morning, with 30 cars of apples on exhibition, including 19 straight cars entered in competition and in the sweepstakes. There are 36 district displays, more than 300 entries in the box contests and over 3,000 plate entries. The apples to be sent to Chicago for exhibition will leave Spokane on the morning of the 21st, and will be on display in the Windy City from the 28th until Dec. 4th.

NEWS OF THE WORLD

Twenty-one persons were drowned by the wreck of two fishing vessels during a severe storm in the English Channel on Friday.

The completed census of the state of Iowa shows its population to have decreased from 2,231,853 in 1900 to 2,224,771 in 1910.

All the great European powers, the United States and some of the smaller nations have now recognized the Portuguese Republic, and have resumed diplomatic intercourse.

Ministers of all denominations, actors, actresses, military officers and medical men figure in the list of signers on a mammoth petition asking for the reprieve of Dr. Crippen.

Although the Democrats won many seats in the United States elections last week and will have a good working majority in the House of Representatives, the Senate will apparently remain Republican by a majority of about 10.

By an amendment to the state constitution ratified at the congressional elections held last week, about 150,000 women in the state of Washington will become qualified electors at once, and will be entitled to participate in the spring elections.

Frank Chambers, a pioneer farmer of Vancouver, Wash., made a dying request that his ashes be scattered over his orchard, where he had spent many happy years, and his daughter says that his wish will be carried out.

The Commercial Cable Co. proposes to cut the rates for cable messages about in half, provided European governments consent to a proportionate reduction in the land lines rates. The suggested rate is to be 12 cents for five letters instead of the present rate of 25 cents per word.

Premier Asquith has announced that the conference between the Liberals and Conservatives on the subject of the veto powers of the House Lords has ended in failure to arrive at any agreement. It is expected that a general election will accordingly take place within the next two months.

The famous play "Chantecler" has terminated its run at the Saint Martin Theatre, Paris, and it is announced that 752 performances, both in Paris and the French provinces have produced receipts of \$642,000, which is considered a remarkable figure for a play so distinctly literary in character.

Count Leo Tolstoi, the eminent Russian novelist and social reformer, has disappeared, and it is said has sent a message to his wife that he has decided to spend his remaining days in solitary confinement. Countess Tolstoi is in despair, and a report states that she has twice attempted to commit suicide by drowning. Count Tolstoi is 82 years of age.

An undertaker at Auburn, Wash., sought to influence voters in the local option ballot in that town last week by displaying in the window of his premises the corpses of two drunkards standing bolt upright in their coffins, with labels stating that one was the body of an ex-soldier of the British Army, who had died of acute alcoholism, and the other that of a man who had been killed by a train while drunk. The ghastly exhibition had the opposite effect to what was intended, as the voters viewed the sight with horror and indignation and in resentment voted "wet," local option being defeated.

According to the United States secretary of Agriculture, the price of meat is bound to decline soon. He bases this prediction upon the abundance of the corn crop and the marked increase in the number of cattle, sheep and hogs.

The river Seine again menaces Paris, and a repetition is threatened of the floods which did enormous damage last January. The water in the river has reached high-water mark, and unless the downpour of rain ceases, it will soon be over the banks.

THE PEOPLE'S STORE
